SECTION 2. HAZARDS IDENTIFICATION

GHS Classification Acute toxicity (Oral)	:	Category 5
Reproductive toxicity	:	Category 1A
Short-term (acute) aquatic hazard	:	Category 2
Long-term (chronic) aquatic hazard	:	Category 1
GHS label elements Hazard pictograms	:	
Signal Word	:	Danger
Hazard Statements	:	H303 May be harmful if swallowed. H360F May damage fertility. H401 Toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects.
Precautionary Statements	:	Prevention: P201 Obtain special instructions before use.

Version 5.11	Revision Date: 26.09.2023	SDS Number: 16524-00025		ssue: 20.03.2023 ssue: 29.09.2014

SECTION	4. FIRST AID MEAS	URES		
Gene	eral advice	advice imme	ediately.	feel unwell, seek medical

	When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	: If inhaled, remove to fresh air. Get medical attention.
In case of skin contact	 In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention.
	Wash clothing before reuse. Thoroughly clean shoes before reuse.
In case of eye contact	: If in eyes, rinse well with water. Get medical attention if irritation develops and persists.
If swallowed	 If swallowed, DO NOT induce vomiting. Get medical attention. Rinse mouth thoroughly with water.
Most important symptoms and effects, both acute and delayed	: May be harmful if swallowed. May damage fertility. Contact with dust can cause mechanical irritation or drying of

Version 5.11	Revision Date: 26.09.2023		DS Number: 524-00025	Date of last issue: 20.03.2023 Date of first issue: 29.09.2014		
Protection of first-aiders		:	the skin. Dust contact with the eyes can lead to mechanical irritation. First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).			
Note	s to physician	:	I reat symptomati	cally and supportively.		
SECTION	15. FIRE-FIGHTING ME	ASL	JRES			
Suita	able extinguishing media	:	Water spray Alcohol-resistant Carbon dioxide (C Dry chemical			
	Unsuitable extinguishing media		None known.			
•	Specific hazards during fire fighting		Exposure to comb	pustion products may be a hazard to health.		
Haza ucts	ardous combustion prod-	:	Carbon oxides			
Spec ods	cific extinguishing meth-	:	cumstances and t Use water spray t	measures that are appropriate to local cir- he surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do		
	cial protective equipment re-fighters	:	In the event of fire	e, wear self-contained breathing apparatus. tective equipment.		
SECTION	6. ACCIDENTAL RELE	AS	E MEASURES			

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	:	Use personal protective equipment. Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	:	Sweep up or vacuum up spillage and collect in suitable container for disposal. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

SAFETY DATA SHEET

Etonogestrel Formulation (Implanon)

Version 5.11	Revision Date: 26.09.2023	SDS Number: 16524-00025	Date of last issue: 20.03.2023 Date of first issue: 29.09.2014				
SECTION	7. HANDLING AND ST	ORAGE					
Technical measures		 Static electricity may accumulate and ignite suspended dust causing an explosion. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres. 					
Local	I/Total ventilation		ilation is unavailable, use with local exhaust				
Advio	ce on safe handling	practice, based assessment Keep container Minimize dust g Keep container Keep away fron Take precautior	dust. vapors. rith eyes. rdance with good industrial hygiene and safety on the results of the workplace exposure				
Conditions for safe storage : Keep in properly labeled containers. Store locked up. Keep tightly closed.							
Mate	rials to avoid	: Do not store wit Strong oxidizing	h the following product types: g agents bstances and mixtures				

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
(17α)-13-Ethyl-17-hydroxy-11- methylene-18,19-dinorpregn-4- en-20-yn-3-one	54048-10-1	TWA	0.05 μg/m3 (OEB 5)	Internal
		Wipe limit	0.5 µg/100 cm ²	Internal

Engineering measures : Use closed processing systems or containment technologies to control at source (e.g., glove boxes/isolators) and to prevent leakage of compounds into the workplace. All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. No open handling permitted.

Version 5.11	Revision Date: 26.09.2023	SDS Number: 16524-00025	Date of last issue: 20.03.2023 Date of first issue: 29.09.2014

based Sheet	The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.					
SECTION	15. REGULATORY I	NFORMATION				

Safety, health and environmental regulations/legisl mixture	ation specific for the substance or
Argentina. Carcinogenic Substances and Agents Registry.	: Not applicable
Control of precursors and essential chemicals for the preparation of drugs.	: Not applicable
The ingredients of this product are reported in the AICS : not determined	following inventories:

Aloo	•	not determined
DSL	:	not determined
IECSC	:	not determined

SECTION 16. OTHER INFORMATION

Revision Date	:	26.09.2023
Date format	:	dd.mm.yyyy

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
