

# Recombinant Follicle Stimulating Hormone Formulation

Version	Revision Date:	SDS Number:	Date of last issue: 04/04/2023
5.10	09/29/2023	26821-00023	Date of first issue: 10/31/2014

### **SECTION 1. IDENTIFICATION**

Product name	:	Recombinant Follicle Stimulating Hormone Formulation			
Manufacturer or supplier's d	eta	ails			
Company name of supplier	:	Organon & Co.			
Address	:	30 Hudson Street, 33nd floor			
		Jersey City, New Jersey, U.S.A 07302			
Telephone	:	1-551-430-6000			
Emergency telephone	:	1-215-631-6999			
E-mail address	:	EHSSTEWARD@organon.com			
Recommended use of the chemical and restrictions on use					
Recommended use	:	Pharmaceutical			
Restrictions on use	:	Not applicable			

### **SECTION 2. HAZARDS IDENTIFICATION**

GHS classification in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200)				
Reproductive toxicity	:	Category 1B		
Specific target organ toxicity - repeated exposure	:	Category 1 (male reproductive organs, female reproductive or- gans)		
GHS label elements				
Hazard pictograms	:			
Signal Word	:	Danger		
Hazard Statements	:	H360FD May damage fertility. May damage the unborn child. H372 Causes damage to organs (male reproductive organs, female reproductive organs) through prolonged or repeated exposure.		
Precautionary Statements	:	Prevention:		
		<ul> <li>P201 Obtain special instructions before use.</li> <li>P202 Do not handle until all safety precautions have been read and understood.</li> <li>P260 Do not breathe mist or vapors.</li> <li>P264 Wash skin thoroughly after handling.</li> <li>P270 Do not eat, drink or smoke when using this product.</li> <li>P280 Wear protective gloves, protective clothing, eye protection and face protection.</li> </ul>		
		Response:		

according to the OSHA Hazard Communication Standard

# Recombinant Follicle Stimulating Hormone Formulation

Version	Revision Date:	SDS Number:	Date of last issue: 04/04/2023
5.10	09/29/2023	26821-00023	Date of first issue: 10/31/2014

P308 + P313 IF exposed or concerned: Get medical attention.

#### Storage:

P405 Store locked up.

#### Disposal:

P501 Dispose of contents and container to an approved waste disposal plant.

#### Other hazards

None known.

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

#### Components

CAS-No.	Concentration (% w/w)
57-50-1	>= 5 - < 10
100-51-6	>= 1 - < 5
146479-72-3	>= 0.1 - < 1
	57-50-1 100-51-6

Actual concentration is withheld as a trade secret

### **SECTION 4. FIRST AID MEASURES**

General advice	:	In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	:	If inhaled, remove to fresh air. Get medical attention.
In case of skin contact	:	In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.
In case of eye contact	:	Flush eyes with water as a precaution. Get medical attention if irritation develops and persists.
If swallowed	:	If swallowed, DO NOT induce vomiting. Get medical attention. Rinse mouth thoroughly with water.
Most important symptoms and effects, both acute and delayed	:	May damage fertility. May damage the unborn child. Causes damage to organs through prolonged or repeated exposure.
Protection of first-aiders	:	and use the recommended personal protective equipment when the potential for exposure exists (see section 8).
Notes to physician	:	Treat symptomatically and supportively.

# Recombinant Follicle Stimulating Hormone Formulation

Version	Revision Date:	SDS Number:	Date of last issue: 04/04/2023
5.10	09/29/2023	26821-00023	Date of first issue: 10/31/2014

### **SECTION 5. FIRE-FIGHTING MEASURES**

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Exposure to combustion products may be a hazard to health.
Hazardous combustion prod- ucts	:	Carbon oxides Metal oxides
Specific extinguishing meth- ods	:	Use extinguishing measures that are appropriate to local cir- cumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to do so. Evacuate area.
Special protective equipment for fire-fighters	:	In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.

### SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	:	Use personal protective equipment. Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g., by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	:	Soak up with inert absorbent material. For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

### SECTION 7. HANDLING AND STORAGE

according to the OSHA Hazard Communication Standard

# Recombinant Follicle Stimulating Hormone Formulation

## Ingredients with workplace control parameters

## Engineering measures

Minimize workplace exposure concentrations.

If sufficient ventilation is unavailable, use with local exhaust ventilation.

# Recombinant Follicle Stimulating Hormone Formulation

Version 5.10	Revision Date: 09/29/2023	SDS Nur 26821-00		Date of last issue: 04/04/2023 Date of first issue: 10/31/2014		
Pers	onal protective equipr	nent				
Respiratory protection		maint conce unkne Follo use N by ain haza suppl relea circu	General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Whe concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worr Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provide by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.			
Hand	I protection					
Material		: Chen	Chemical-resistant gloves			
Remarks		on th time i For s resist glove	Choose gloves to protect hands against chemicals depend on the concentration specific to place of work. Breakthroug time is not determined for the product. Change gloves ofte For special applications, we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufacturer. Wash hands before breaks and at the end of workday.			
Eye p	protection	: Wear the following personal protective equipme Safety glasses				
Skin	and body protection	<ul> <li>Select appropriate protective clothing based on chem resistance data and an assessment of the local exposi- potential.</li> <li>Skin contact must be avoided by using impervious pro- clothing (gloves, aprons, boots, etc).</li> </ul>		nd an assessment of the local exposure t be avoided by using impervious protective		
Hygie	ene measures	: If exposure to chemical is li		emical is likely during typical use, provide ems and safety showers close to the ot eat, drink or smoke.
