

Payments to U.S. Health Care Professionals

Organon is a global women's health company that develops and manufactures medicines and medical devices for various health conditions. As a manufacturer and marketer of drugs, including biopharmaceuticals, and medical devices, Organon is obligated to report certain payments and other transfers of value given to U.S. physicians, non-physician healthcare professionals and certain hospitals under the U.S. Physician Payments Sunshine Act ("Sunshine Act") and certain state and local laws.
