

Joseph Morrissey

Head of Manufacturing and Supply

Joe is responsible for Organon's global manufacturing and supply chain capabilities, leading the company's efforts to deliver medicines and solutions around the world. In his role, he ensures cross-functional coordination to drive uninterrupted, compliant and timely supply of Organon's diverse portfolio, with products that reach people in more than 140 markets around the world.

Joe came to Organon from Merck, known as MSD outside the U.S., where he spent more than 30 years of his career. Most recently, from 2017 to 2021, Joe served as Senior Vice President of Merck's Animal Health Global Manufacturing and Supply, and from 2014 to 2016 as Senior Vice President and leader of Global Human Health Pharmaceutical Manufacturing. Previously, he held positions of increasing responsibility in pharmaceutical and vaccine manufacturing, global facilities management, corporate strategy, and supply chain management.

Joe has an M.B.A. from Villanova University and a B.A. in engineering from Lafayette College.

About Organon Organon is a global health care company formed to focus on improving the health of women throughout their lives. Organon offers more than 60 medicines and products in women's health in addition to a growing biosimilars business and a large franchise of established medicines across a range of therapeutic areas. Organon's existing products produce strong cash flows that support investments in innovation and future growth opportunities in women's health and biosimilars. In addition, Organon is pursuing opportunities to collaborate with biopharmaceutical innovators looking to commercialize their products by leveraging its scale and presence in fast growing international markets. Organon has a global footprint with significant scale and geographic reach, world-class commercial capabilities, and approximately 10,000 employees with headquarters located in Jersey City, New Jersey.
